

Davison AYSO Region 721 Waiting List

Our soccer season starts in September of each year, corresponding with the start of a new school year.

In order to have teams placed with coaches, provide training to volunteers, and order uniforms, our registration for the fall is held in June. We usually have three sign up dates: The first Tuesday and Thursday of June and a Wednesday later in June. We officially end registration on June 30th.

Our soccer year is divided into two seasons. The first season is generally from September through October, with practices starting in late-August. The second season starts in mid-April and runs through mid-June. Once you have registered for the fall, you are automatically included in the spring season and your child is on the same team as they were in the fall.

After July 1st, anyone wishing to register to play will be placed on a waiting list. When registering on the site, it will let you know if there is currently a waiting list for the age group you are signing up for. Complete the wait list registration to be added to the waiting list. You will not be charged until your child is activated from the waiting list. You will receive an email when that happens asking you to login and complete the payment.

If your child decides over the winter that they want to play soccer, login to the site and register for the wait list. Generally, we have players who do not come back in the spring for a variety of reasons. Usually, we have more openings in the spring.

Players are added to the waiting list in the order that their request was received.

If a team loses a player, or has issues with a child not showing up for games, the coach can request to add a new player to his team. If there are enough players on the waiting list of the same age and gender to place them in the same division, we will try to make a new team.

If a coach requests a new player, the Registrar will activate the first player on the waiting list whose age and gender would place them in that division, and offer them a place on that team. If that player declines, they are removed from the waiting list and the next eligible player is contacted until a player is added, or there are no more eligible players. Any player who wishes to join will be responsible for the Late Registration Fee, which is the same amount no matter when they are added to a team.

Player who wish to join after July 1st will not be placed with requested coaches or teams, nor can a coach recruit players to join their team. The waiting list places no preference on the player or their ability, the only factor is the order in which the request to join was made. Coaches do not know who is on the waiting list, nor do they know how many players are on the list. If a coach requests a new player, they do not have the option to decline any player added to their team. This is to prevent coaches from trying to bring in players they know will make their team better.
